

AJMAL U

Full Stack Developer

Personal Summary

Full Stack Developer with over 2 years of experience in building scalable web applications and strong back-end systems. Skilled in creating interactive, responsive user interfaces and managing complex databases. Seeking full-time opportunities to apply my expertise in both front-end and back-end development.

Work Experience

Software Developer

Ampcome Technologies Pvt. Ltd.

June 2023 - Present | Bengaluru, Karnataka

CENTA (Centre for Teacher Accreditation)

- Developed and implemented RBAC and ABAC systems for enhanced security and access management.
- Engineered location-based authentication and OTP verification for two-factor authentication, improving user security.
- Led the product lifecycle from ideation to deployment, building intuitive interfaces and scalable systems for thousands of product variations.
- Oversaw user management for a 1.5 million-user base, ensuring scalability and efficient data handling.
- Created an analytics dashboard for real-time insights into user behaviour, sales, and product performance. Technologies used: Next.js, Redux, GraphQL, PostgreSQL, Refine, AWS

MAHASEEI

- Developed responsive user interfaces with Next.js and managed state using Redux, enhancing the user experience.
- Integrated APIs using NestJS, enabling smooth front-end and back-end communication.
- Designed and managed PostgreSQL databases to ensure secure and efficient storage of user and product data.
- Deployed and optimized the e-commerce platform, improving performance and reducing load times.

IOGA Insurance

- Developed and optimized an insurance policy management system, tracking policies from draft to issuance.
- Automated policy draft creation and renewal processes, reducing manual tasks and improving accuracy.
- Built a policy extension and renewal module, increasing customer retention through automated reminders.
- Integrated endorsements for mid-term adjustments, ensuring compliance with client requests.
- Created analytics dashboards and reporting tools to provide insights into policy performance and agent efficiency.
